BCA SEM1 Examination, 2025 (Session : 2025-2028)

Paper : 1BCA1 - Fundamentals of Computer

Paper Code : 111601

Time : Three Hours **Full Marks : 100 Pass Marks : 40**

Note : Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. Convert the following numbers to decimal:

(i) $(11111)_2$

(ii) $(1110001)_2$

(iii) $(527)_8$

(iv) $(EBCD3)_{16}$

(v) $(BCABBA)_{16}$

2. What is data representation? Explain UTF-8 encoding system.

3. Discuss following DOS commands:

(i) Chdir

(ii) Move

(iii) Rmdir

(iv) Format

4. Discuss the real time and batch time processing.

5. Discuss memory hierarchy in computer system. Differentiate main memory and cache memory.

6. What is DMA? How DMA work?

7. Write short notes on any two of the following:

(i) Super computer

(ii) Output devices

(iii) Multi-Processing

(iv) MICR

8. Describe the types of operating system with their features.

9. Differentiate between any two of the following:

(i) Compiler and Interpreter

(ii) Static and Dynamic Memory

(iii) SSI and VLSI

(iv) CUI and GUI

(v) Digital and Analog Computer

10. What do you mean by Software? Explain various types of Software with example.

BCA SEM1 Examination, 2025 (Session : 2025-2028)

Paper : 1BCA2 - P.C. Package

Paper Code : 111602

Time : Three Hours **Full Marks : 100 Pass Marks : 40**

Note : Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. Explain the following features with example:

(i) Auto Correct

(ii) Spell Check

(iii) Mail Merge

(iv) Auto Text

2. Explain statistical, Arithmetical, Date function with example.

3. Discuss following terms:

(i) Page break (MS Word)

(ii) Workbook

(iii) Control panel

(iv) Goal Seek

4. Discuss the Window's Applet.

5. What is formula in Excel? Explain relative, absolute and mixed reference with example.

6. What is auto filter? How auto-filter is implemented?

7. What is ten features of Microsoft Word Document?

8. Explain scenario and pivot table.

9. What are the various types of chart available in MS-Excel?

10. What is GUI? Discuss various components of GUI.

BCA SEM1 Examination, 2025 (Session : 2025-2028)

Paper : 1BCA3 - Programming Logic & Design Techniques

Paper Code : 111603

Time : Three Hours **Full Marks : 100 Pass Marks : 40**

Note : Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. Define the following terms:

(i) Time Complexity

(ii) Algorithm

(iii) Variable and Constant

(iv) Control Structure

2. Define Flow Chart. Explain symbol used in flow chart and also describe advantages of Flow Chart with Example.

3. Write an Algorithm and draw Flow chart to check whether the value of unit place of a given number is even or odd.

4. Discuss different problem solving techniques.

5. Explain procedural and recursive programming.

6. Explain complexity of an Algorithm.

7. What do you mean by Asymptotic? Explain all.

8. Explain the purpose of Expression, Statement and Loop in a program.

9. Write short notes on following of any two:

(i) Encapsulation

(ii) Fibonacci series

(iii) Pseudo code

10. Write an algorithm and draw a flow chart to check whether a triangle is right angle or not.

BCA SEM1 Examination, 2025 (Session : 2025-2028)

Paper : 1BCA4 - Programming in C

Paper Code : 111604

Time : 3:00 Hours **Full Marks : 100 Pass Marks : 40**

Note : Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. Discuss different searching techniques in array. Explain with an example.

2. Write a C program to count and print number of vowels in a given String.

3. Write short notes on any two of the following:

(i) Static storage class

(ii) Preprocessor directive

(iii) Size of operator

4. Explain user defined function and types of user define function. Write a program to find factorial of a number using argument with return.

5. Write program for the following:

(i) Find all palindrome number from 1 to 1000

(ii) Print table and sum of table of any inputted number.

6. Explain switch statement in detail with suitable example.

7. What do you mean by String? Discuss different four library function related to string with example.

8. What is operator? Discuss relational and logical operator with example. Also discuss unary and binary operator.

9. Write short notes on following:

(i) '\0' character

(ii) identifier

(iii) Escape sequence character

(iv) Operator precedence

10. How break and continue statements are used in C? Explain with loop example.

BCA SEM1 Examination, 2025 (Session : 2025-2028)

Paper : 1BCA5 - Communicative English

Paper Code : 111605

Time : 3:00 Hours **Full Marks : 100 Pass Marks : 40**

Note : Candidates are required to give their answers in their own words as far as practicable. The questions are of equal value. Answer any five questions.

1. Read the following passage carefully and answer the questions given below:

Information Technology and Library Services are two faces of the same coin. In a village setup, mostly the young and the old use of libraries and the middle aged make little use of these libraries. They need job related information to update their skills and knowledge. The Library and Information Services play a dominant role in catering to education. Information requirement of society, Library is an Instrument of social change, Concurrent with changes in society, the concept of library has changed it is a multimedia centre and a place for learning resources for the literate as well as the illiterate.

Integrated approach in starting at least a reading rooms in every hamlet is the need of the hour. Co-ordination between the department of education and Panchaytee Raj in spreading the library movement is of paramount importance The School can function in a village serving the common need of the students and public. The massive permanent building programmes for weaker sections in rural areas should earmark at least one house for every thousand houses or in very cluster literary purpose. The SWOON of tired teacher or a retired employee in that Sage can be availed. The library has to function in the evening hours and to be extended for TV and Internet operations also. Information Technology, Internet and e-commerce have great potential in catering to public needs.

Answer the following questions :

(A) (i) What is the significance of Library and Information Services?

(ii) What is the concept of Library now?

(iii) What is the writer's suggestion about opening a Library in the rural areas?

(iv) What should be kept in view in setting up a library in a village?

(v) Which words in the passage have the same meaning as?

(B) (i) Ability

(ii) Means

(iii) Present within

(iv) Preference

2. Write a letter in not more than 120 words to the Mayor for giving suggestions on how tourism in your city can be promoted.

3. Explain any of the following in approx. 100 words :
(a) Cyber Crime (b) Firewall (c) Need of seminar

4. Give a project plan to establish and functioning of Student Grievance Redressal Committee in your college.

5. Write a letter to District Magistrate for encroachment problem of footpath.

6. Rewrite the following sentences into passive voice :
(a) We are playing Football.
(b) Who has eaten my mangoes?
(c) Let me pay you the fees.
(d) I have done my work successfully.

7. Your Department wants to organize AI Summit. Write an Invitation to IT Minister for the inauguration session of Summit.

8. Write a letter to Principal for establishment of Digital Library in your college.

9. What is Communication? Discuss various kinds of Communication.

10. Impact of Gesture and Posture in daily organizational life.
